

ANDREAS PANAYI

Athens, Greece | Limassol, Cyprus

+357 96614842 | +30 6945202600 | andreaspanayi8@gmail.com | Personal Portfolio

EDUCATION

National and Kapodistrian University of Athens (NKUA)	2024 – Present
National Technical University of Athens (NTUA)	
M.S. in Theoretical Computer Science (ALMA)	GPA: 9.83/10
<i>Selected coursework:</i> Advanced Algorithms & Data Structures, Computational Complexity, Graph Theory, Machine Learning, Artificial Intelligence, Algorithmic Data Science	
National and Kapodistrian University of Athens (NKUA)	2020 – 2024
B.Sc. in Mathematics	GPA: 8.84/10

EXPERIENCE

Research and Innovation Foundation of Cyprus, Rinnoco Ltd	Jun 2026–Jul 2026
<i>Research and Development Intern</i>	
- Selected by Rinnoco Ltd through a competitive Research and Innovation Foundation of Cyprus programme for a six-week industry research internship. - Worked across the research and development pipeline on data management, big data, data reduction, compression, and data decay, from early-stage design to proof-of-concept implementation.	
Archimedes Research Unit, Athena Research Center	Jun 2025 – Jan 2026
<i>Intern Researcher</i>	
- Designed and implemented advanced data structures for computational geometry problems in a research setting. - Contributed to algorithmic work across algorithms, artificial intelligence, and data science through technical analysis and implementation.	
National and Kapodistrian University of Athens	2021–2026
<i>Teaching Assistant, Computer Science I</i>	
- Conducted undergraduate laboratory sessions for the mandatory course <i>Computer Science I</i> in the Department of Mathematics. - Taught programming in MATLAB (2021–2024) and Python (2024–2026), as well as $\text{\LaTeX}$, computer arithmetic, and numerical linear algebra.	

PROJECTS

Marabu Blockchain Implementation	Completed
<i>TypeScript, C++, Linux, SSH, GitHub</i>	
- Implemented a complete blockchain node based on the Marabu protocol in TypeScript and C++. - Deployed, tested, and debugged the system on a remote Vultr server using SSH and GitHub-based workflows.	
Coursework Archive & Technical Notes	Ongoing
<i>GitHub Pages, HTML, XeLaTeX</i>	
- Built and maintain an online archive of coursework, technical notes, and selected academic material using HTML.	

- Authored introductory L^AT_EX and X_YL^AT_EX notes for university courses.
- Available at andreaspanayi8.github.io/coursework-archive.

RESEARCH

Listing Even Cycles Beyond the Submodular Width Barrier

Submitted: PODS 2027

Manuscript; joint work with Prof. Vasilis Nakos and Dr. Hung Q. Ngo

- Developed output-sensitive algorithms for listing even-cycle queries, connecting graph algorithms with database-theoretic enumeration beyond the submodular width barrier.
- Submitted to SIGMOD/PODS 2027, the flagship conference for data management.

TECHNICAL SKILLS

Languages: Python, TypeScript, MATLAB

Working knowledge: C++, Julia, R, Haskell, Prolog

Tools: Git, GitHub, Linux, LaTeX, XeLaTeX, SSH

Systems: Remote development, testing, and deployment workflows on Vultr

Spoken languages: Greek (native), English (fluent)

SCHOLARSHIPS & ATHLETICS

Cyprus State Scholarships Foundation

2020 – 2026

Full scholarship for the entire duration of bachelor's and master's studies

Hellenic Bank Cyprus

2020 – 2024

Full scholarship for undergraduate studies

Athletics Distinctions

Represented Cyprus in international competitions across all age categories and earned distinctions in individual and relay events. Pancyprian champion and gold medalist in 100m, 300m hurdles, 400m, and 400m hurdles in school and club competitions.

ADDITIONAL

Military Service

Jul 2019 – Sep 2020

Served in the technical department during 14 months of military service in Cyprus
